Subject: Assistant News Director

All,

I am excited to tell you that Tony Capriolo will be joining the CBS 58 newsroom as Assistant News Director. Tony will fit right in to our place as Your Hometown Station because this is, indeed, his hometown! Tony went to Pius High School and UW-Madison. For the past seven years he has been Executive Producer of Newscasts and Special Projects at WMAQ in Chicago. In that role, he oversaw the 4p, 5p and 6p newscasts and was a creative force behind coverage of major events from the Chicago Marathon to the Chi-Town Rising NYE special. Tony will bring a wealth of experience to our newsroom as well as a built-in love for the Packers, Brewers, Bucks and Badgers. This search brought us top-notch candidates from across the country and I interviewed many people. Tony's experience in both daily and big picture news and projects, forward-thinking ideas, feel for newsroom culture, and knowledge of the area gave him the edge. He also loves long-term planning and will be taking on many of our planning projects.

Tony is a proud father of two college students. He and his wife, Sky, are currently looking for a new house and a new neighborhood in SE Wisconsin. Finally, Tony told me that his parents are over the moon that he is returning to the city where he grew up. If that doesn't say Hometown Station, I don't know what does 🙂. Tony's first day will be March 1.

Jessie Garcia
