Virtual 9:00-11:00 AM - June 6-10th

One in four children have been exposed to a traumatic event that may have a lasting impact on the well-being and functioning of students and their families. By understanding how trauma impacts students and adopting a trauma-informed approach, educators can play a crucial role in mitigating both the short and long-term effects of trauma. This interactive workshop will leave you with a renewed commitment to reach some of the most vulnerable students and their families.
