

ASK THE INSPECTOR: RECREATIONAL CAMP INSPECTION Q & A

Minimum Standards for recreational summer camps for children are governed in Massachusetts by 105 CMR 430.000. Ensuring children at camp are safe is a complicated and important public health function. Health Agents, BOH members, and Nurses involved in inspections and permitting of camps are invited to join the DPH Community Sanitation Program for a discussion of:

- Intersection with other codes and laws
- Inspection/permitting best practices
- Frequently seen issues at recreational camps
- Answers to your questions!

Speaker: Kerry Wagner, MDPH, BEH, Mass DPH Environmental Health Analyst
