

My name is John Garcia, I am stage 4 Kidney Cancer Warrior, since April 2018 I want to thank you from the bottom of my Heart for bringing relief to me.

With ThriveWell helping me with my out-of-pocket expenses for CAT Scans, MRIs, and my major surgery in 2018, the financial burden was lifted from me and allowed me to focus on getting better both physically and emotionally. I think I would still be in financial stress, probably still worrying about how I would pay my next bill.

Thanks to 😊 Angel's Joséé, Erin, and Lisa, who are my Guardian Angel's 💙 ❤️ I feel like God placed them here to help all of us who are needing assistance. They are here for us just at the right time and in the right place.

They also signed me up with the Dude program, where once or twice a week I can go burn calories and build muscle. I'm still in treatment and so on the days I feel good, I go and it's catered to my specific needs. I am thriving and living life to the fullest, happy!

Thank you so much for being there for me as I focus on my journey less stressed. I don't know where my state of mind would be without you being there for me.

A hug from me to you with love ❤️

John Garcia
