What is an Access Class?

Our Access classes are specifically designed to solely include students with disabilities.

Feel Like:

- The tactile exploration of content
- A supportive community

Look Like:

- 1:5 Teacher student ratios
- Teaching staff trained in working with the disability community
- Students making choices based on provided visuals
- Differentiation based on a conversation with the family
- Adapted instruction to include sensory and developmentally appropriate content

Sound Like:

- A clear routine that everyone can follow
- Decreased sound levels
- Music, fun, and laughter
