2. Distinguish the importance of physician involvement in the development of laws and regulations that impact the practice of psychiatry and mental health parity.
3. Report status of the implementation of the rulemaking on the enforcement of mental health parity.

5:15 pm

***Closing Remarks – Jasleen Chhatwal, MBBS, MD, President, Arizona Psychiatric Society***

## **GENERAL LEARNING OBJECTIVES**

At the conclusion, the attendee should be able to:

1. Reframe burn-out as moral injury and identify ways to cope individually and systemically with moral injury.
2. Recognize the durable structural and individual phenomena that perpetuate reduced engagement and retention of BIPOC with SUD into treatment and recovery services and apply an anti-racist framework to any structural and interpersonal interventions to improve SUD outcomes for BIPOC.
3. Assess the mental health impacts of COVID-19 to school-aged youth and identify avenues for physician involvement in the development of policies and programs that promote improved mental health outcomes in schools.
4. Recognize the main risk factors for the development of delirium in the setting of COVID-19 infection and evaluate the evidence supporting the non-pharmacological and pharmacological agent treatment options in the prevention and treatment of delirium.
5. Identify how to screen and identify warning signs for eating disorders and apply the assessment of eating disorder symptoms in patients to implement specific treatments and specific levels of care associated with improved patient outcomes.
6. Summarize the key legislative issues affecting the practice of psychiatry from the 2021 Arizona legislative session and the current status of rulemaking regarding the Arizona mental health parity law and identify avenues for physician involvement in the development of laws and regulations that impact the practice of psychiatry and mental health parity.
7. Keep abreast of current issues relating to the impacts of COVID-19 within the meeting topic areas by authorities in their related fields.

The Physician Payment Sunshine Act is a federal law that requires pharmaceutical and device manufacturers under certain circumstances to publicly report any complimentary gift, food, beverage, non-CME certified education, or other items of value given to physicians. If you are provided a complimentary item by a company that may be required to report your receipt of that gift, APA recommends that you ask the person providing the complimentary item whether your name will be reported under the Act before accepting the complimentary item so that you can make an independent and educated decision to accept or not accept it.

**The exhibitor drawing prizes are sponsored by the Arizona Psychiatric Society and the Physician Payment Sunshine Act does not apply to your participation in the raffle or in the event that you are chosen as the recipient of one of those prizes.**
