

Manufacturers' **ASSOCIATION**

**MEMBERSHIP
& BENEFITS**

WE ARE YOUR LINK

**TO THE REGION'S
LARGEST NETWORK OF
MANUFACTURERS AND
INDUSTRY RESOURCES.**

The Manufacturers' Association is a voice for the industry, and for hundreds of members in Northern Maryland and South Central PA. Together, we're joining forces with educators, policymakers, economic planners, nonprofits, and allied businesses who understand that a future without a strong, innovative manufacturing sector is a future that benefits no one. And we won't rest until our region is the manufacturing leader we know it can be.

WE'RE HERE TO HELP LOCAL MANUFACTURERS OUTSMART OUTSOURCING.

Tens of thousands of jobs—and the health of our economy—depend on it.

\$14.8 billion

of annual economic output from our region's manufacturers (20% of the economy)

40+

Manufacturers participating in our Apprenticeship Program

2,000+

Individuals trained by The Manufacturers' Association annually

2,500

Manufacturers in South Central Pennsylvania

Networking & Advocacy

In addition to advocacy on behalf of members, we host regular networking and educational events that bring together manufacturers, partners, and community leaders.

Group Health & 401(k)

Whether or not you're a manufacturer, you'll benefit from the savings on group health, dental, and vision plans available to all members. We also offer a group 401(k), which eliminates the administrative work that typically goes along with employee-sponsored retirement programs.

HR & Talent Management

We help members find qualified talent and provide ongoing human resources support, compliance resources, HR policy training programs, business development initiatives, and annual wage surveys.

Workforce Development

Training and education are the foundation of everything we do. We offer an ever-growing range of apprenticeship opportunities, classes, courses, and events—all with deep member discounts.

**TOGETHER, WE CAN ENSURE
A VIBRANT FUTURE FOR
MANUFACTURING.**
