COVID-19 Statement

As a national Tribal health and public health-focused organization, the National Indian Health Board is committed to the health and safety of all attendees, speakers, staff and surrounding community members in the Alaska area. We will continue to monitor the COVID-19 pandemic and coordinate with partners to take the necessary steps to protect all TPHS 2022 registrants. If circumstances require changes to the summit structure, registrants will be notified as soon as possible. A comprehensive COVID-19 policy for the TPHS 2022 is forthcoming.
