

To take your survey online, simply visit this web address:

<https://www.surveymonkey.com/r/FCUCCDG>

using the web browser you currently prefer (Google Chrome, Microsoft Edge, Safari, etc.)

We ask that each member of your household over 18 take the survey for themselves. We want to hear each person's unique perspective.

If you have multiple survey takers in your household, please close your browser window after one person takes the survey and open an incognito or inprivate window for the next person. This will avoid getting a message that the survey has already been completed.

The image below (from Chrome) shows where you will find that option on most web browsers.
