

WOOD BADGE is for everyone!!

“Wood Badge is truly one of the best training courses offered by the Boy Scouts of America!” I had heard this for years, from multiple people across the country, and used to think it was just part of the sales pitch. I thought the same thing that you might be thinking when I was asked to sign-up: “Oh great, another long boring training with outdated videos.”

I can tell you that I was wrong. This is not a routine training, but a masterpiece of a course. I found myself learning new skills, meeting new people from all backgrounds, and having genuine fun! The course is designed to make sure you are leaning and enjoying your time, and this was the greatest surprise to me. It is not boring or slow, and lets you live the Scouting program so you can help deliver it to future generations.

The best part? The lessons and benefits will reach far beyond your Scouting involvement to your personal and professional lives. Lessons about communication, listening, interpersonal relationships, managing conflict, and embracing change are just some of amazing topics I still use daily.

So, what is holding you back? I promise this is no bait-and-switch. If you were wondering if this course is worth it, I can only say to make the investment for your youth, for the great times, for the unforgettable memories, and for yourself! You will not regret it.

-Kris Zahrobsky
